

Who We Are

Pedagogy is a Lebanese-based consulting firm, with a presence in Lebanon and the United Arab Emirates. We specialize in offering a wide range of educational services to academic institutions both locally and across the MENA region.

Our mission is to foster quality education through a comprehensive approach, helping institutions enhance their academic, management, marketing, and financial processes. We aim to build competent advocates equipped with problem-solving, critical thinking, and creativity skills.

What We Offer

Accreditation Consulting Service (APIS)

Our APIS framework (Assess, Plan, Implement, Structure) is designed to help institutions meet international accreditation standards by enhancing the quality of education.

Capacity Building Workshops

We provide professional development programs tailored for both academics and administrators. These workshops enhance pedagogical approaches for teachers and strengthen leadership competencies for administrators. Programs are available both online and on-ground.

Curriculum Design and Development

Our expert team develops and reforms curricula, presenting them in an interactive e-Book platform. This approach maximizes student learning, particularly in a distance learning environment.

Our Team

We are a team of expert consultants specializing in various fields including education, finance, management, marketing, and educational technology. Led by Hani Hamed, our team is dedicated to building collaborative professional learning communities that meet today's educational demands.

Our Values

Perseverance

We are committed to overcoming challenges to drive change in educational institutions. We support systems that stimulate a genuine curiosity for learning.

Empowerment

We believe in school reform that nurtures a healthy school climate, fostering collegiality, trust, and accountability.

Genius

Our curricular innovations are designed to cater to gifted students, creating STEM-based environments that enhance reasoning and critical thinking skills.

Guidance

Our reviewers work with school stakeholders to plan and implement effective school reforms, improving curriculum delivery, the school environment, and parental involvement.

Yearning

We are constantly seeking new approaches to improve our services and those of the institutions we work with, encouraging our team to challenge existing methods.

Our Services

Accreditation Consulting

We offer comprehensive planning and consulting services to prepare institutions for accreditation.

Curriculum Design and Development

We develop interactive, quality curricula tailored to 21st-century competencies, presented in e-Book formats.

Teacher Professional Development and Coaching

Our programs help teachers apply innovative instructional methodologies and inclusive practices in the classroom.

Shaping Student Character Curricula

We create curricula that promote moral education and shape learners' character and skills.

Educational Technology (ICT in Education)

We integrate SMART technologies in classrooms, converting traditional paper books into interactive e-Books and boards.

School Management System

Our user-friendly system streamlines administrative and academic data management and enhances communication with parents.
